

Reference data : The output waveform of CF5035

- Measurement conditions

Power supply voltage : 1.8V

Output frequency : 155.5MHz (3rd overtone crystal)

Load capacitance : 15pF

Temperature : 25°C

Package : Miniature Ceramic SMD package(7.0mm x 5.0mm)

Oscilloscopes : Agilent Infiniium 54855A

Differential Probe : Agilent InfiniiMax 1134A
